**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 10, 11 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Sato, et al. (4,360,224).

Sato discloses a tricycle comprising a pair of suspension arms 17, 18; wheels 40, 41; a rocking mechanism 13 provided between the suspension arms side and a body frame side. Sato teaches a connecting member 26 on the body frame by a through pin 35. The rocking mechanism is a neidhardt damper. With respect to the suspension arms connected to each other by a shock absorber, Sato teaches a shock absorber or a neidhardt cushion 13, see col. 3, lines 24-27.

***Allowable Subject Matter***

3. Claims 2-9 and 12-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references cited discloses some features in common with the present invention.
